

**Santa Clara Green Power** is certified by Green-e Energy. As part of this certification, we are required to provide you with detailed information about the green power product. This includes the **Santa Clara Green Power** Product Content Label, the program's Price, Terms and Conditions and Silicon Valley Power's Power Content Label.

### PRODUCT CONTENT LABEL

When you enroll in **Santa Clara Green Power**, Silicon Valley Power (SVP) purchases renewable energy certificates equal to 100% of your monthly electricity usage from renewable energy sources.

RENEWABLE ENERGY SOURCE	GENERATION LOCATION		PROSPECTIVE ENERGY MIX
	2014 Actual	2015 Projected	
Wind	WA	Western U.S.	15%
Solar	CA	CA	85%

More information about the **Santa Clara Green Power** mix: These figures reflect the power that we have contracted to provide. Actual figures may vary according to resource availability. Each year we will report to **Santa Clara Green Power** program participants the actual resource mix over the preceding year and the states where the renewable energy facilities were located.

More information about the facilities: Facilities supported by this program are considered new, which means 2015 facilities began commercial operation on or after January 1, 2001.

Program Certification: Green-e Energy certifies that Silicon Valley Power meets the minimum environmental and consumer protection standards established by the non-profit Center for Resource Solutions.

\* Unspecified sources of power means electricity from transactions that are not traceable to specific generation sources.

\*\*Percentages are estimated annually by the California Energy Commission based on the electricity sold to California consumers during the previous year.

\*\*\*These values do not reflect renewable generation determined to be in excess of the RPS target in the first compliance period (2011 - 2013) that requires 20% of retail sales to be procured from renewable sources, and will be applied to future compliance periods.

### POWER DELIVERY INFORMATION

When you subscribe to **Santa Clara Green Power**, Silicon Valley Power (SVP) will continue to provide electricity to your premises and contract for wind and solar renewable energy certificates to match your electricity usage. Renewable energy is delivered to various points on the electrical system. Once delivered to the electric grid, renewable power mixes with power from other electrical generation plants. Because of this, SVP cannot guarantee that the actual electricity generated from renewable sources is delivered to a specific home or business.
